Business testimonial

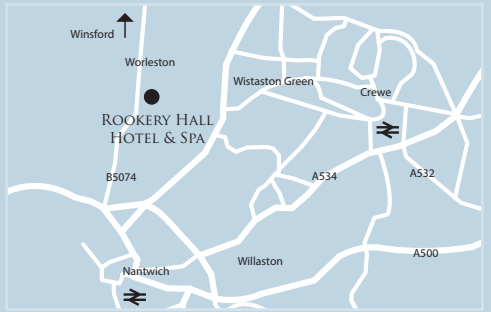

...the meeting was a big success and the whole format really lent itself to creating the right environment to deliver our message.

The layout of the Nantwich suite was ideal. We loved the reception/lobby area and managed to get all of the games there and the BBQ area for the first evening. This was also the first hotel where I have not had technical issues! It was so easy that I just plugged in and off we went.

...the bedrooms were also a hit with the team including the TV's in the bathroom, the showers, the comfortable beds and the facilities in the room and small touches like the fresh milk in the fridge.

The quality and standard of the food was excellent. Even our most fussy eater was complimentary... Overall a really great experience.
